GOVERNMENT OF INDIA.
Department of Labour.

No. TR251(1).

Dated Simla, the 31st May 1941.

From

H. Tufnell-Barrett, Esquire, I.C.S.,

Deputy Secretary to the Government of India,

To

The Superintendent,

The Government Trades School,

Mangalore.

Subject:- Technical Training Scheme - Training at the Government Trades School, Mangalore

Sir,

I am directed to refer to the recent visit to your School of Professor A. Viswanath, Regional Inspector of Technical Training, Southern Circle, and to inform you that as a result of this visit the Government Trades School, Mangalore, has been selected for the training of men for the Indian Army Ordnance Corps and other technical branches of the Indian Army, Ordnance Factories, and war industry generally.

2. I am now to convey the sanction of the Governor General in Council to the application of the Technical Training Scheme to your School and to -

(1) the training therein of * 43 (Fortythree) trainees;

* 25 Fitters.
4 Turners.
2 Millers.
4 Machinists.
8 Electricians.
43

(2) the payment to you monthly in advance of training fees at the provisional rate of Rs.5/- (Five) per head per month for this number or such less number as may actually be enrolled; and

(3) the payment through you of stipends to the trainees at Rs.25/- (Twentyfive) per mensem for matriculates and Rs.20/- (Twenty) per month for non-matriculates.

3. I am also to convey the sanction of the Governor General in Council to the engagement of the undermentioned additional staff:-

One Electrician Instructor on pay not exceeding Rs.90/- (Ninety) per mensem.
One Maistry type instructor on pay not exceeding Rs.45/-(Forty-five) per mensem.
One Clerk on pay not exceeding Rs.45/-(Fortyfive) per mensem.

The....

The Electrician Instructor will teach the entire number of students allotted both to your School and to the Canara Public Conveyance Company Limited for training as electricians. It is hoped that your School and the Canara Public Conveyance Company Limited will work in co-ordination with each other so that the entire syllabus of training may be completed.

4. I am further to sanction the grant to you of a permanent advance of Rs.45/- (Fortyfive) to cover expenditure on stamps and contingencies viz., lighting of hired hostel accommodation (if any), travelling allowance to trainees on journeys to undergo trade tests or to join posts on the termination of their training and medical treatment of trainees and to authorise you to draw on the usual bills and pay to each trainee, after he has reported to your institution for training, travelling allowance at the rate of one single third class railway or steamer fare plus one anna per mile for road journeys from his home to the institution, provided the distance exceeds five miles.

5. The necessary funds to meet the above charges should be drawn from the local Treasury on presentation of bills in accordance with the procedure laid down in this Department's letter No. TR58, dated the 20th December 1940 (copy enclosed). The Accountant-General, Madras, is being asked to include the name of your School in the list of institutions and training centres given in paragraph 1 of that letter and to issue necessary instructions to the Treasury Officer concerned. The Manager, Central Forms Store, Calcutta, is also being asked to supply you with copies of the necessary bill forms. Future supplies of these forms may be obtained direct from him on application.

6. A copy of this Department's Memorandum No. TR56, dated the 27th December 1940, containing general instructions for the application of the Technical Training Scheme to technical institutions selected for utilization is also enclosed.....

enclosed for your information. It is presumed that the trainees will be able to find their own lodgings in the town of Mangalore and that Government will not have to incur any expenditure on this account.

7. Sanction to the non-recurring expenditure involved in the application of the Scheme to your School will be conveyed separately.

I have the honour to be,

Sir,

Your most obedient servant,

Deputy Secretary to the Government of India.

D.A. Referred to.

Copy (without enclosures) forwarded to the Chairman, Madras National Service Labour Tribunal, Madras. The vacancies shown in paragraph 2 of the above letter should be filled from the Reserve List in consultation with the Superintendent, Government Trades School, Mangalore, in accordance with the printed 'Instructions to Technical Training Selection Committees' forwarded with the Government of India, Department of Labour letter No. TR45(1), dated the 20th December 1940.

By order, etc.,

D. M. Bhatnagar

for Deputy Secretary ~~to the Government~~ of India.

Copy (without enclosures) forwarded to:-

1) Dr. G.W. Burley, Senior Regional Inspector, Southern Circle.
2) Professor A. Viswanath, Regional Inspector, Southern Circle, with the request that he will personally arrange for the co-ordination of training at this School and at the workshops of the Canara Public Conveyance Company Limited.
(3) Mr. E.E.L. Grundy, Regional Inspector, Eastern Circle.
(4) The Manager, Central Forms Store, Calcutta, for information and necessary action, in continuation of Department of Labour letter No. TR58, dated the 24th April 1941.
(5) The Managing Director, the Canara Public Conveyance Company Limited, Mangalore.

By order, etc.,

No. TR251(2).

Dated Simla, the 3rd May 1941.

From

H. Tufnell-Barrett, Esquire, I.C.S.,

Deputy Secretary to the Government of India,

To

The Superintendent,

Government Trades School,

Mangalore.

Subject:- Technical Training Scheme - Training at the Government Trades School, Mangalore.

Sir,

In continuation of this Department letter No. TR251(1), dated the 3rd May 1941, I am directed to say that the equipment noted in the margin will be supplied to you by the Indian Stores Department and that the amount required for the payment of the freight charges, if any, should be drawn from the local Treasury in accordance with the procedure laid down in this Department letter No. TR58(1), dated the 20th January 1941 (copy enclosed).

Fitters-
15 vices,
20 sets of standard tools.
Turners-
2 sets of standard tools.
Electricians-
8 sets of standard tools.

2. I am to authorise you to incur an expenditure not exceeding Rs.60/- (Sixty) on the making locally of fitters' benches (to accommodate 15) and of Rs.150/- (one hundred and fifty) on the purchase of a second-hand electric motor with starter etc. The actual expenditure incurred, which should be reported to this Department, should be drawn on the usual bills in accordance with the procedure laid down in this Department letter No. TR58, dated the 20th December 1940.

3. I am to request that, in accordance with paragraph 20 of the 'Instructions to Principals of Technical Institutions', a progress report in the prescribed form should be submitted to this Department with a copy to the Regional Inspector, Southern....

Southern Circle, as soon as the classes have started and thereafter on the first of every calendar month. 40 copies of the form of the report are enclosed.

4. A copy each of the undermentioned papers is forwarded for your information :-

(1) Technical Training Scheme, 1940.
(2) Instructions to Principals of Technical Institutions.
(3) Syllabuses of Training and Trade Tests,
(4) Fitting Course, and
(5) Turning Course.

I have the honour to be,

Sir,

Your most obedient servant,

Deputy Secretary to the Government of India.

D.A. Referred to.

Copy (without enclosures) forwarded to:-

(1) Dr. G.W. Burley, Senior Regional Inspector, Southern Circle.
(2) Professor A. Viswanath, Regional Inspector, Southern Circle.
(3) Mr. E.E.L. Grundy, Regional Inspector, Eastern Circle, with the request that he will kindly proceed with the arrangements for the supply of the equipment noted in the margin of this letter.

By order, etc.,

for Deputy Secretary to the Government of India.

Government Trade School, Mangalore - Re-wiring class rooms and workshop and purchase of energy from the local supply company - Proposals.

ENCLOSURES.
No.
Spare copies

No. 2360-C/41.

Station Madras, *Dated the* 3rd June 1941.

From (Name) L.B.Green Esq., O.B.E.,
(Designation) Director of Industries and Commerce,

To The Secretary to the Government of Madras,
Development Department.

Sir,

A When the Trade School at Mangalore was first established there was no local electric supply company and the school has up to the present produced its own electricity for lighting, the classes meeting only in the evening. After years of service the generator became faulty and uneconomical to run, and it was repaired. In his notes on his inspection of the school in February last the Inspector of Industrial Schools wrote as follows:-

> "The electric generator recently repaired is still faulty. It gives sufficient light for the workshop, but not for the class room and is liable to be very jumpy and bad for the eyes in a drawing lesson. The Superintendent will please prepare and submit an estimate of the cost likely to be incurred in re-wiring, connection charges etc., and for current if a supply is taken from the Municipal supply, in the first instance for class room work only".

The Superintendent has now submitted an estimate of Rs.80 for re-wiring the class rooms and of Rs.60 for providing the service connection or Rs.140 in all. He estimates that he

will consume energy to the value of Rs.150, and save in engine fuel Rs.40 leaving a net annual recurring cost of Rs.110.

2. Since this estimate was prepared, however, the Government of India in Labour Department have ordered the institution of war technicians training classes in the school, and as will be seen from the documents forwarded with Government Endorsement No.12911-D/41-1 dated 13th May 1941 it is proposed that eight of these will be electricians and that with them for some of the work will be associated another eight or more electrician students from a local bus company's workshop.

As a result of the orders of the Government of India, the Superintendent now proposes the purchase of a 10 H.P. motor to be used as an alternative to the engine, which is said to be not in a very good condition. I am not prepared to recommend Government to sanction such expenditure at present. I consider that we should go on using the engine to generate the power we require. If it breaks down the training will be interrupted but as only 10 of the trainees will on power operated machines, the majority being fitters and electricians, a short interruption in the supply of power whilst the engine was being repaired would not be vitally important. I do consider, however, that the time has now come to take a proper and reliable lighting supply from the supply company instead of going on with our present unreliable and inefficient arrangement and to rewiring both the workshops and class rooms to prevent serious loss of energy.

3. I request therefore that Government will be pleased to sanction an expenditure not exceeding Rs.200 on re-wiring the premises and on incurring the cost of the necessary connection. This amount includes Rs.140 for wiring and Rs.60 for the connection, but I request that a lumpsum of Rs.200 may be sanctioned as the actual details may have to be adjusted. The wiring will of course be of such a nature that it can readily be dismantled and removed on the expiry of the present lease if necessary. The expenditure can be met from the budget of the school under Apparatus and Materials after it has been augmented to provide for the expenditure by the Provincial Government on the items required for the war technician trainees.

4. In this connection I request that orders may issue that the fee of Rs.5 per head per mensem, amounting for the 43 trainees proposed to Rs.2580, or Rs.2500 allowing for some trainees falling out, be treated as a school fee receipt; and that the budget of the school be augmented by Rs.2500 under Apparatus and Materials by Rs.1600 and under Contingencies - Other charges by Rs.900, and that the other orders regarding the conduct of trainees classes at the Government Industrial School, Madura relating to appointment of staff, correspondence etc. be applied in the case of the Government Trades School, Mangalore, also.

5. I may say that the Superintendent expects to spend up to Rs.600 on power for the trainee classes. His estimate is probably excessive, and if the 10 H.P. motor he asks for is not provided will be less than this figure for engine power alone, and I consider that the amount of Rs.2500 referred to above should be sufficient to cover the cost of power plus the cost of materials and a portion of the wiring and service connection. The position will however, be reviewed after three months and the Government of India asked to increase the amount of Rs.5 per head if the rate is found inadequate. I understand that a suggestion is already under consideration to raise it to Rs.7.

6. To summarise, I request that Government will be pleased to sanction (i) an expenditure not exceeding Rs.200 for rewiring the premises of the Government Trades School, Mangalore, and for providing a connection to the public electric supply, the use of purchased electricity in place of that generated in the school

for lighting purposes, the use of the old generator being discontinued and the generator itself retained as part of the equipment of the electrician class, (ii) the conduct of the war technicians trainee classes at Mangalore on the lines already approved for the Government Industrial School, Madura, and (iii) the treatment of the sum of Rs.5 per head per mensem to be paid by the Government of India in respect of each trainee as a school fee receipt, the budget of the school being augmented under apparatus and materials by Rs.1600 and under contingencies other charges by Rs.900 or a total of Rs.2500 after allowing for Rs.80 wastage through a falling off in the number of trainees, and that the other orders relating to trainee classes at Madura apply to the school at Mangalore also.

7. Pending orders of Government the Superintendent is being instructed to lose no time in getting the trainee classes started and to inform the Chairman, National Service Labour Tribunal on what date they will open, so that the latter officer will proceed with arrangements for selecting the candidates.

for Director of Industries and Commerce.

G.M.

Development Department.

Education - Industrial - Government Trade School, Mangalore - Re-wiring class room and workshops - Purchase of of energy from local supply companies.

From the D.I & C., No.2360-C/41, dated 3rd June 1941.

To U.S.

The Government Trade School, Mangalore, has been up to the present producing its own electricity for lighting. After years of service, the generator has become faulty and uneconomical to run. As a result of the application of the Technical Training Scheme to the school, it has become all the more necessary to ensure a proper and reliable lighting supply from the Municipal supply company. The D.I&C. has submitted proposals for rewiring the premises of the school and for providing the service connection at a cost of Rs.200/- The generator will not hereafter be used for generation and will be retained as part of the equipment of the electrician class to be instituted under the Technical Training Scheme. The Director's ~~His~~ proposal may be accepted.

In paras 4 and 5 of his letter, the D.I & C asks for permission (1) ~~the~~ to conduct the war technicians trainee classes at Mangalore on the lines already approved for the Government ~~Trade~~ Industrial School, Madura and (2) to treat the sum of Rs.5/- per head per mensem to be paid by the Government of India as a school fee receipt, the budget of the school being augmented under apparatus and materials by Rs.1,600 and under contingencies - other charges, by Rs.900.

There is no objection to the above proposals.

A draft order is submitted which may be sent to Finance for ~~compliance~~ acceptance.

Draft order for approval.

Finance (Exb.)

The proposals in this case are ~~contained~~ in the letter from the Director of ~~Industries~~ and Commerce at pages 9-11 C.F. They are intended (i) to give a more reliable electric supply to the Govt. Trades School, Mangalore and (ii) to give effect to the sanction of the G. of India for training war technicians in the above School. para 1+3, pp. 9-10 C.F. pp. 3-8 C.F.

The proposals in regard to item (i), viz. to obtain electric energy from the Municipality, is to be a temporary arrangement, the wiring being fitted in such manner as to be removed and dismantled as ~~and when necessary~~ soon as the lease is terminated. The proposals in regard to item (ii) follow the scheme approved in the Govt. Industrial School, Madura. para 3, p. 10 C.F

2. The G. of I is stated to have enhanced the fee ~~paid~~ by them for each of their trainees from Rs ~~4~~ to Rs 7. If 43 persons as ~~proposed~~ by the G. of I are trained the total fee ~~this~~ will be ~~saved~~ realized is Rs ~~3612~~ 3.612. Against this the ~~Director~~ D-I and C is proposed to be authorised to spend only Rs 2.500 This may be agreed to.
